

Title	FOA number(s)	FOA sponsor (e.g. NICHD, FDA)	Application Deadline	Brief Description
<u>Supporting Healthy Start Performance Project</u>	HRSA-19-050	The Health Resources and Services Administration (HRSA), Maternal and Child Health Bureau (MCHB)	8-Jan-2019	The purpose of SHSPP is to promote consistency in service delivery across Healthy Start (HS) programs and support HS grant recipients in providing effective, evidenced-based service delivery through training and technical assistance.
<u>Family-to-Family Health Information Centers – Montana</u>	HRSA-19-093	The Health Resources and Services Administration (HRSA), Maternal and Child Health Bureau (MCHB)	15-Jan-2019	The purpose of this program is to provide information, education, technical assistance, and peer support to families of children and youth with special health care needs (CYSHCN) and the professionals who serve them.
<u>Autism Secondary Data Analysis Research Program</u>	HRSA-19-090	The Health Resources and Services Administration (HRSA), Maternal and Child Health Bureau (MCHB)	22-Jan-2019	The Autism SDAR Program supports secondary data analysis of existing publicly available and accessible national databases and/or administrative records ¹ to advance best practices and determine the evidence-based practices for interventions.

<u>Leadership in Family and Professional Partnerships</u>	HRSA-19-058	The Health Resources and Services Administration (HRSA), Maternal and Child Health Bureau (MCHB)	24-Jan-2019	The purpose of this program is to increase the engagement of families ² with children or youth with special health care needs (CYSHCN) at all levels of health care.
<u>Natural History of Disorders Identifiable by Screening of Newborns (R01 Clinical Trial Optional)</u>	PAR-18-090	Health and Human Services- National Institutes of Health 11	7-May-2019	This funding opportunity announcement (FOA) encourages applications that propose to develop studies that will lead to a broad understanding of the natural history of disorders that already do or could potentially benefit from early identification by newborn screening. A comprehensive understanding of the natural history of a disorder has been identified as a necessary element to facilitate appropriate interventions for infants identified by newborn screening.
<u>Pediatric Emergency Care Applied Research Network (PECARN)</u>	HRSA-19-052	Maternal and Child Health Bureau (MCHB)	8-Mar-2019	The purpose of this program is to establish and maintain a multi-institutional research network that conducts high-quality, rigorous studies using pooled samples of pediatric patients to determine optimal pediatric emergency care.

<u>Natural History of Disorders Identifiable by Screening of Newborns (R01)</u>	PAR-16-061	Health and Human Services- National Institutes of Health 11	8-May-2019	This funding opportunity announcement (FOA) encourages applications that propose to develop studies that will lead to a broad understanding of the natural history of disorders that already do or could potentially benefit from early identification by newborn screening.
<u>Exploratory/Developmental Investigations on Primary Immunodeficiency Diseases (R21)</u>	PAR-17-333	National Institutes of Health	16-Jul-2019	This Funding Opportunity Announcement (FOA) will support innovative exploratory/developmental investigations on primary immunodeficiency diseases focusing on ex vivo studies with human specimens and on studies with current or new animal models including novel clinical strategies for detecting, identifying the molecular basis of, or developing innovative therapies for primary immunodeficiency diseases.
<u>Trophoblast Differentiation and Function (R01)</u>	PA-16-445	National Institutes of Health (NIH)-National Institute of Child Health and Human Development (NICHD)	8-Jan-2020	The purpose of this Funding Opportunity Announcement (FOA) is to encourage applications from the scientific community to support outstanding research in the area of trophoblast differentiation and function in relation to fertility and pregnancy, including the role of the immune system.

<u>Small Grants for Secondary Analyses of Existing Data Sets and Stored Biospecimens (R03)</u>	PA-17-299	National Institutes of Health (NIH)-National Institute of Child Health and Human Development (NICHD)	7-May-2020	This Funding Opportunity Announcement (FOA) encourages applications that propose to conduct secondary analyses of publicly available NICHD-funded data sets or stored biospecimens. The goal of this program is to facilitate innovative yet cost-effective research utilizing data and biospecimens collected with NICHD resources.
<u>Ethical, Legal and Social Implications (ELSI) of Genomics Small Research Grant Program (R03)</u>	PA-17-445	NHGRI, NCI, NIA, NIAID, NICHD, NIDCD, NIDA, NIEHS	7-Sep-2020	This Funding Opportunity Announcement (FOA) invites Small Research Grant (R03) applications to study the ethical, legal and social implications (ELSI) of human genome research
<u>Ethical, Legal, and Social Implications (ELSI) of Genomics Exploratory/Developmental Research Grant Program (R21)</u>	PA-17-446	NHGRI, NCI, NIA, NIAID, NICHD, NIDCD, NIDA, NIEHS	7-Sep-2020	This Funding Opportunity Announcement (FOA) invites Exploratory/Developmental Research Grant (R21) applications that propose to study the ethical, legal and social implications (ELSI) of human genome research.

<u>Pregnancy in Women with Disabilities (R03)</u>	PA-17-451	National Institutes of Health (NIH)-National Institute of Child Health and Human Development (NICHD)	8-Sep-2020	Areas of interest include studies to inform preconceptional and antenatal counseling and strategies for addressing barriers to prenatal care, and management of pregnancy, the puerperium, and the transition to parenthood in order to optimize outcomes for women with physical, intellectual and developmental, and/or sensory disabilities and their families.
<u>Short-Term Research Education Program to Increase Diversity in Health-Related Research (R25 Clinical Trial Not Allowed)</u>	RFA-HL-19-024	National Institutes of Health	6-May-2021	To support educational activities that enhance the diversity of the biomedical, behavioral and clinical research workforce in the mission areas of importance to NHLBI.
<u>Innovative Therapies and Tools for Screenable Disorders (R01 Clinical Trial Optional)</u>	PAR-18-689	National Institutes of Health	7-May-2021	This FOA encourages research relevant to the development of therapeutic interventions for potentially fatal or disabling conditions that have been identified through newborn screening, as well as "high priority" genetic conditions where screening may be possible in the near future.

<u>Innovative Therapies and Tools for Screenable Disorders (R03 Clinical Trial Optional)</u>	PAR-18-690	National Institutes of Health	7-May-2021	This FOA encourages research relevant to the development of therapeutic interventions for potentially fatal or disabling conditions that have been identified through newborn screening, as well as "high priority" genetic conditions where screening may be possible in the near future.
<u>Innovative Therapies and Tools for Screenable Disorders (R21 Clinical Trial Optional)</u>	PAR-18-691	National Institutes of Health	7-May-2021	This FOA encourages research relevant to the development of therapeutic interventions for potentially fatal or disabling conditions that have been identified through newborn screening, as well as "high priority" genetic conditions where screening may be possible in the near future.
<u>Content Development for the Newborn Screening Clearinghouse</u>		The Health Resources and Services Administration (HRSA), Maternal and Child Health Bureau (MCHB)	Ongoing	Develop and maintain a central clearinghouse of newborn screening information and provide expertise on newborn screening to inform this project.

<u>Child, Newborn, and Maternal Health Project</u>	RFA-391-13-000009	USAID-PAK	Ongoing	<p>The purpose of this amendment is to cancel the Request for Application No.: 391-13-000009 for implementation of the "Child, Newborn, and Maternal Health Activity."</p>
<u>Preliminary Guidance Related to Informed Consent for Research on Dried Blood Spots Obtained Through Newborn Screening</u>	NOT-OD-15-127	National Institutes of Health	Ongoing	<p>The purpose of this Notice is to provide preliminary guidance to investigators engaged in newborn screening-related research regarding a new provision of the Newborn Screening Saves Lives Reauthorization Act of 2014 (P.L. 113-240).</p>
